METERFIT™ COMBINED TOP HAT AND LID

waterfit

DIMENSIONS

VARIATION	PRODUCT CODE	SIZE (MM) (A X B X C)	WEIGHT (KG)
Combi Lid - Badged "WATER"	THL2460	285 x 285 x 193	3.2

BILL OF MATERIALS

1 Meterfit Ductile Lid
Material: Ductile iron

2 Meterfit Polymer Frame
Material: Polymer

3 Meterfit Top Hat
Material: Polymer

SPECIFICATIONS

- Lid material: Ductile iron, Frame material: Polymer
- Up to 7 tonnes load capacity
- Angular adjustment: 15° with Waterfit telescopic tube
- Conforms to BS 5834-2
- Grade C

FEATURES

- Hybrid construction combining a polymer frame with ductile iron lid
- Integrated top hat design provides telescopic height adjustment
- Height and angular adjustment
- Compatible with the Waterfit telescopic tube for increased angular adjustment
